MAY 4, 1993

IN RE: Integrated Resource Plan filed by	)	ORDER GRANTING
Carolina Power & Light Company.	)	PETITION FOR
	)	CLARIFICATION

This matter is before the Public Service Commission of South Carolina (the Commission) on Nucor Steel, A Division of Nucor Corporation's (Nucor's) Petition for Clarification of Order No. 93-261. Order No. 93-261 found Carolina Power & Light Company's (CP&L's) Integrated Resource Plan (IRP) consistent with the Commission's IRP procedures. Nucor now requests that the Commission specifically clarify as follows:

- (1) that the Order is intended only to resolve those issues on which the Commission has made specific findings; and
- (2) that the Commission has made no ruling on or offered any opinion on the specific issues raised by Nucor or other parties that were not expressly decided in the Order, because the Commission's overall rulings in this case make it unnecessary to resolve those specific issues at this time.

The Commission hereby clarifies Order No. 93-261 as follows: only those issues specifically addressed in Order No. 93-261 have been ruled on by the Commission; the Commission has made no ruling

on any specific issues raised by Nucor or other parties that were not expressly decided in the Order.

IT IS SO ORDERED.

BY ORDER OF THE COMMISSION:

  
Chairman

ATTEST:

  
Executive Director
